EXTENSION OF DATES FOR COMPLIANCE WITH IDENTIFICATION DATA REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 6th day of December 1949.

Amendments 2-1, 3-1, 4a-3, 4b-1, 6-3, 13-1, 14-1, 15-1 adopted November 2, 1949, require the installation, after December 6, 1949, of a fireproof identification plate on the several products manufactured in accordance with the requirements of each part. We are advised that certain manufacturers have as yet been unable to obtain the required fireproof plates, but that such plates can be obtained before March 7, 1950. We are therefore extending the date for compliance with these requirements until that time, so that deliveries of aircraft and aircraft components will not be interrupted.

For the reasons stated above notice and public procedure hereon are impracticable and contrary to the public interest, and the Board finds that good cause exists for making this regulation effective on less than 30 days' notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates a Special Civil Air Regulation as follows, effective immediately:

Contrary provisions of the Civil Air Regulations notwithstanding, the requirements of §§ 2.36, 3.791, 4a.770, 4b.931, 6.61, 13.22, 14.7, 15.5, 15.11 (g), 15.12 (h), as amended November 2, 1949, shall not become effective until March 7, 1950.

This regulation shall terminate March 7, 1950, unless sooner superseded or rescinded.

(Secs. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

Secretary.

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

OPERATING LIMITATIONS AND PERFORMANCE DATA

In order to provide performance data applicable to C-46 airplanes certificated with various engine ratings and maximum weights, it is deemed desirable to amend the performance data set forth in Supplement 2, § 42.80-1, Tables 1, 2, and 3, published on October 15, 1949, in 14 F. R. 6285, effective November 1, 1949. Inasmuch as this amendment relaxes the operating limitations set forth in those tables, compliance with the notice, procedures, and effective date provisions of the Administrative Procedure Act are unnecessary. Therefore, acting pursuant to the authority contained in sections 205 (a) and 601 of the Civil Aeronautics Act of 1938, as amended, and § 42.80 of the Civil Air Regulations, § 42.80-1 is amended as follows:

1. The first paragraph, last sentence is revised to read: "In the interest of safety, passenger-carrying Curtiss C-46 airplanes designated as Models A, D, E, and F shall be operated in accordance with the following operating limitations:"

PART 60—AIR TRAFFIC RULES

STANDARD INSTRUMENT APPROACH PROCEDURES

Under section 205 (a) of the Civil Aeronautics Act of 1938, as amended, the Administrator of Civil Aeronautics is authorized to make and amend such rules, regulations, and procedure as are necessary to carry out the provisions of, and to perform and exercise his powers and duties under, the act. Under section 601 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board is empowered to delegate to the Administrator of Civil Aeronautics the authority to prescribe rules, regulations, and standards which promote safety of flight in air commerce. Under §§ 42.55 (b), 42.56, and 60.46 of the Civil Air Regulations, the Civil Aeronautics Board has authorized the Administrator of Civil Aeronautics to prescribe standard instrument approach procedures, including ceiling and visibility minimums.

Acting pursuant to the foregoing statutes and regulations, standard instrument approach procedures were prescribed. These procedures are hereby amended. This amendment is made effective without delay, in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

1. Section 60.46-4 *Low frequency range procedures (CAA rules which apply to § 60.46)* is amended by adding the following procedures where procedures have not been established, and by substituting the following procedures where procedures have been established:

Correction

In F. R. Document 49-9916, appearing at page 7415 of the issue for Saturday, December 10, 1949, make the following changes:

1. In column 1, page 7417, line 8 of paragraph (b) (2) should read, "bruises, broken skins, russetting, limbrubs."

2. In column 3, page 7417, the word "may" in line 1 of subparagraph (8) (i) (a) should read "any".

3a. In column 3, page 7417, the word "net" appearing in line 13 of subparagraph (8) (i) (c) should read "not".

an aircraft within a danger area unless permission for such operation has been issued by appropriate authority. Such areas have been designated and published.

The following danger area alterations have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and should be adopted without delay, in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Acting pursuant to sections 205 and 601 of the Civil Aeronautics Act of 1938, as amended, and § 60.13 of the Civil Air Regulations, and in accordance with sections 3 and 4 of the Administrative Procedure Act, I hereby amend the Code of Federal Regulations, Title 14, Chapter I, Part 60, § 60.13-1, as follows:

1. A Lake Ontario (Wilson), New York, area is added to read:

b. In line 15, the word "and" should read "end".

4. In column 1, page 7418, in subparagraph (10) (iv) (c), the word "and" in line 9 should read "end".

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 135—COLOR CERTIFICATION

FEES

By virtue of the authority vested in the Federal Security Administrator by the provisions of sections 406 (b), 504, 604, and 706 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 et seq.; 21 U. S. C. 346 (b), 354, 364, and 376), the regulations for the certification of coal-tar colors (21 CFR, Part 135), as amended (14 F. R. 3373) are amended as indicated below:

1. In § 135.15 Fees, paragraph (a) is amended to read as follows:

(a) (1) The fees for the services provided by the regulations in this part in the case of requests for certification submitted in accordance with § 135.8 (b) shall be:

(i) For any batch of a straight color or lake listed in § 135.3:

Weight of batch:	Fee
500 pounds or less...	\$50.00.
Over 500 pounds but not over 1,000 pounds.	\$50.00, plus 5 cents for each pound in excess of 500 pounds.
Over 1,000 pounds...	\$75.00, plus 3 cents for each pound in excess of 1,000 pounds.

(ii) For any batch of a straight color listed in § 135.4 or § 135.5, which color is not a lake:

Weight of batch:	Fee
750 pounds or less...	\$75.00.
Over 750 pounds but not over 1,000 pounds.	\$75.00, plus 5 cents for each pound in excess of 750 pounds.
Over 1,000 pounds...	\$87.50, plus 3 cents for each pound in excess of 1,000 pounds.

(iii) For any batch of a lake of a straight color listed in § 135.4 or § 135.5: \$100.00, plus 3 cents for each pound in excess of 1,000 pounds in the batch.

(2) The fees for the services provided under the regulations in this part in the

case of each request for certification submitted in accordance with § 135.8 (c) or (d) shall be:

Weight of batch:	Fee
100 pounds or less...	\$6.00.
Over 100 pounds but not over 500 pounds	\$6.00, plus 4 cents for each pound in excess of 100 pounds.
Over 500 pounds...	\$22.00, plus 1/2 cent for each pound in excess of 500 pounds.

2. The following new paragraph is added to § 135.15:

(d) Whenever in the judgment of the Commissioner the ratio between fees collected (which are based upon experience and the best estimate of costs and the best estimate of earnings) and the costs of providing the service during an elapsed period of time, in the light of all circumstances and contingencies, warrants a refund from the fund collected during such period, he shall make ratable refunds to those persons to whom the services were rendered and charged, except that no refund shall be made where the computed ratable amount for the elapsed period is less than \$5.00.

The amendments hereby promulgated shall become effective on the thirtieth day following the date of their publication in the FEDERAL REGISTER. This change in fees is necessary in order to provide, maintain, and equip an adequate service for the listing and certification of coal-tar colors, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the fees set forth in the order are necessary in order to provide, maintain, and equip an adequate service for the listing and certification of coal-tar colors.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 608—VETERINARY INSPECTION

MISCELLANEOUS AMENDMENTS

Paragraph (a) (1) and the third sentence of paragraph (b) of § 608.1, and paragraph (a) (2) of § 608.3, are changed to read as follows:

§ 608.1 *Inspection of establishments—*
(a) *Award of contracts.* (1) The award of contracts for meat and meat-food products is limited to bidders whose plants operate directly under the supervision of the Bureau of Animal Industry, United States Department of Agriculture, or to bidders handling, in establishments approved by the Veterinary Corps, meat and meat-food products originating in plants under the supervi-

sion of the Bureau of Animal Industry. The award of contracts for milk, cream, or other fluid milk products, and ice cream will be limited to establishments which have passed an Army or Air Force sanitary inspection within the calendar month preceding the opening date of the bid or which are certified to by Army Medical Department authorities as approved sources of supply.

(b) *The inspection of establishments.* * * * A vendor who proposes to bid on Army or Air Force contracts will be advised to apply in writing to the procuring agency concerned, requesting a veterinary sanitary inspection of his establishment. * * *

§ 608.3 *Milk plant and dairy farm inspection—*(a) *Object.* * * *

(2) It is not intended that veterinary officers will routinely inspect all dairy farms supplying milk to milk plants having Government contracts. Ordinarily, veterinary officers will determine the character and quality of the raw milk through frequent laboratory examinations of representative samples taken at milk plants and through close contact with local health or other civilian agencies exercising supervision over the raw milk supply. However, in exceptional circumstances where it would be in the interest of the Government to do so, and in cases where milk is procured by an Army or Air Force installation from an individual or firm operating a dairy farm in conjunction with a milk plant, the veterinary officer will make the necessary inspection of the farm.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH PAYMENT OF BOOK, SUPPLY, AND EQUIPMENT CHARGES

In § 21.150, new paragraphs (e), (f), and (g) are added to read as follows:

§ 21.150 *Payment of book, supply, and equipment charges.* * * *

(e) The application of the provisions of this section is not mandatory for Attachés for Veterans Affairs Offices. Approved educational institutions located in a country under the jurisdiction of an Attaché for Veterans Affairs Office, Department of State, which have perfected arrangements for furnishing books, supplies, and equipment, may be permitted to continue furnishing such items to eligible veteran-students in accordance with current Veterans' Administration regulations and instructions

applicable to approved institutions in the United States.

(f) The provisions of paragraphs (a), (b), and (c) of this section are for application within the jurisdiction of the Manila regional office, except as follows:

(1) Approved institutions within the jurisdiction of the Manila regional office which have perfected satisfactory arrangements for furnishing books, supplies, and equipment may be permitted, at the discretion of the manager, to continue such practices in cases of veterans enrolled therein under Part VIII, Veterans Regulation No. 1 (a), as amended.

(2) Claims for reimbursement will be forwarded to the Manila regional office. The manager of the Manila regional office, or his designate, is authorized to approve claims for reimbursement and to make payments accordingly, provided

the necessary R & E (rehabilitation and education) and finance records are available. Due caution will be exercised to insure that claims for reimbursement are not authorized for payment unless the provisions of Part VIII, Veterans Regulations No. 1 (a), as amended, and applicable regulations and instructions relative to excess charges are strictly complied with.

(g) It is further emphasized that the provisions of this section do not apply to tuition fees, registration, laboratory, health and/or infirmary, library, and other similar fees incidental to tuition requirements which are customarily required by the institution of all students similarly circumstanced. It will continue to be the responsibility of the approved foreign educational institution to bill the Veterans' Administration for such charges in the prescribed manner. Vet-

eran-students will not be reimbursed direct for tuition fees and other customary fees incidental to tuition requirements which they pay personally to a foreign institution subsequent to January 1, 1949.

(2) *Basis other than piece rate.* A worker employed on other than a piece-rate basis, who is being transferred and employed as a learner in accordance with § 522.44 (c) or (d) (retraining), shall be paid not less than 68 cents an hour in the seamless branch of the hosiery industry and not less than 71 cents an hour in the full-fashioned branch.

§ 522.47 Piece rate payment to all learners. If experienced operators are paid on a piece work rate, learners shall be paid at least the same piece work rate as that paid workers already employed on similar work in the establishment and learners shall receive their full piece work earnings whenever these exceed the subminimum hourly wage established in the certificate.

Special certificates authorizing the employment of learners in excess of five percent shall be valid for a period not exceeding eight months unless sooner revoked in accordance with § 522.50 for cause.

§ 522.49 Provisions of learner certificates. All special certificates shall include, among other matters, the learner occupations, length of learning period, and rates set forth hereinabove; the definition of a learner; the requirement that the employer shall exercise due diligence to secure experienced workers before employing inexperienced workers at learner rates in their stead, except in the instance of retraining experienced workers already employed in the mill, when the necessity of employing experienced workers in lieu of learners shall not apply; the requirement that the certificate shall be posted continuously during its validity in a conspicuous place in the plant where the learners are to be employed; and a prohibition against the violation of any of the terms and conditions set forth in the certificate.

§ 522.50 Revocation of special learner certificates. (a) Any special certificate may be canceled if it is found that it is not necessary to prevent a curtailment of opportunities for employment: *Provided, however,* That when experienced workers become available after a certificate has been issued, the certificate may be canceled insofar as future employment is concerned, or may be allowed to continue in effect, upon condition that the employer does not hire additional learners under it until experienced workers are not again available. In the absence of fraud or misrepresentation learners already hired under a special certificate may be retained under the terms of the certificate if the learning period extends beyond the date on which the certificate has been canceled.

(b) Any special certificate shall be cancelled as of the date of issue if it is found that the certificate has been obtained by fraud or misrepresentation, or that learners have been employed thereunder in violation of the terms of the certificate. When a certificate has been obtained by fraud or misrepresentation the employer shall be liable to the employee for wages established by the act as if no certificate had issued.

(c) Any special certificate shall be cancelled as of the first date of violation if it is found that any of its terms have been violated, and the employer shall be liable to those employed under such certificate, from the date of violation, for wages established by the act, as if no certificate had issued.

(d) Except in cases of willfulness or those in which the public interest requires otherwise, before any contemplated action for the cancellation or revocation of any special certificate for the employment of learners in the hosiery industry will be considered, facts or conduct which may warrant such action shall be called to the attention of the employer in writing and the parties shall be accorded an opportunity to demon-

strate or achieve compliance with the regulations contained in this part.

§ 522.51 *Definition of the hosiery industry.* The definition of the term "hosiery industry," for the purpose of this part, shall be as follows: The manufacture or processing of hosiery including, among other processes, the knitting, dyeing, clocking, and all phases of finishing hosiery, but not including the manufacture or processing of yarn or thread.

TEXTILE INDUSTRY

NOTICE OF HEARING

Pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended, the Administrator on May 7, 1941, issued regulations (§§ 522.140 to 522.159) governing employment of learners in the textile industry at wages below the minimum wage established by section 6 of the act. These regulations were amended by Administrative Order No. 181 on March 22, 1943, to provide a subminimum wage rate of 35 cents an hour for learners in specified occupations in the textile industry.

Because of changed conditions throughout the industry no certificates have been requested or issued under the learner regulations for the textile industry for several years, and it is clear that the regulations do not accurately reflect current conditions in the industry as regards the employment of learners, and reexamination of the regulations is therefore necessary.

By virtue of the Fair Labor Standards Amendments of 1949 the minimum wage provided in section 6 of the act will be increased from 40 to 75 cents an hour, effective January 25, 1950. Employers in the textile industry have indicated that when the 75-cent minimum wage goes into effect some provision should be made for employment of learners at a rate or rates below the statutory minimum.

Therefore, pursuant to the authority vested in me by section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, 29 U. S. C. 214; as amended, 63 Stat. 910), notice is hereby given of a public hearing to be held in Conference Room A, Interdepartmental Auditorium, 14th Street and Constitution Avenue, NW., Washington, D. C., to commence at 10:00 a. m. on December 19, 1949, before an authorized representative of the Administrator, at which evidence and testimony will be received on the following questions:

1. Is it necessary, in order to prevent curtailment of opportunities of employment, to provide for the employment of learners in the textile industry, as de-

fined in § 522.158, after January 25, 1950 at wages below the minimum provided in section 6 of the Fair Labor Standards Act, as amended; and if such necessity be found to exist.

2. What subminimum wage rate should be provided for learners in the textile industry, what number or proportion of learners should be permitted in a plant, in what occupations should learners be permitted, and the length or duration of learning period?

Written statements in lieu of personal appearance may be mailed to the Administrator at any time prior to the date of the hearing or may be filed with the presiding officer at the hearing.

Signed at Washington, D. C., this 9th day of December 1949.

WM. R. McCOMB,
Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 45]

FREQUENT OR REGULAR INTRASTATE
OPERATIONS

EXTENSION OF COMPLIANCE DATE

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board an amendment of Part 45 as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received within 30 days from the date of this publication will be considered by the Board before taking further action on the proposed rule.

On October 4, 1949, the Board adopted an amendment of Part 45 which in general terms provided that commercial operators carrying passengers on a common carrier basis between points within a State in excess of an established frequency or regularity would have to comply with the same safety standards applicable to interstate operators of comparable regularity or frequency. The date established for full compliance with the amended requirements for operators entitled to "grandfather rights" under the provisions of the part was January 1, 1950.

At the time the amendment was promulgated the number of operators involved, and the scope of the compliance problem was not fully known. Since that time many of the operators affected by the rule have expressed their desire to comply with the safety standards so established, but have indicated that the time allowed for compliance is insufficient for the obtaining of the necessary communication equipment and the establishment of an appropriate ground organization. The Administrator has also advised us that, in view of the num-

ber of operators involved, his staff would not be able to complete the certification process by the established date. It has, therefore, been recommended that the Board extend the date for compliance to April 1, 1950, for operators entitled to "grandfather rights," in order to avoid the suspension of operations through circumstances over which the operator has little control.

The same considerations do not apply to persons who are newly entering into the business, and it is not intended to extend the established compliance date for such persons.

We have also been advised that there is no significant number of commercial operators subject to the provisions of Part 45 engaged in carrying passengers in small aircraft on a common carrier basis between two points within a State with the established regularity or frequency. It has therefore been suggested that we confine the operating requirement of § 45.4 (b) for meeting the standards of Part 61 to operations in aircraft of 12,500 lbs. or more maximum certificated take-off weight. The proposed amendment so provides.

It is therefore proposed to amend Part 45 of the Civil Air Regulations (14 F. R. 4276) as follows:

1. By amending § 45.2 to read as follows:

§ 45.2 *Certificate required.* (a) No person subject to the provisions of this part shall, except as provided below, engage in air commerce using aircraft of 12,500 pounds or more certificated maximum take-off weight until he has obtained from the Administrator a commercial operator certificate:

(1) Any such person whose operations are not subject to the safety standards of Parts 40 and 61 of this chapter in accordance with the provisions of §§ 45.3 and 45.4 (b) may engage in operations subject to the provisions of this part without a commercial operator certificate until such time as the Administrator shall pass on his application for such certificate, but in no case later than January 1, 1950, if he (i) was engaged in such operations on March 23, 1949, and (ii) he had filed with the Administrator an application for such certificate no later than June 1, 1949.

(2) Any such person whose operations are subject to the safety standards of Parts 40 and 61 of this chapter in accordance with the provisions of §§ 45.3 and 45.4 (b) may engage in operations subject to the provisions of this part without a commercial operator certificate or compliance with the requirements of § 45.4 (b) until such time as the Administrator shall pass on his application for such certificate, but in no case later than April 1, 1950, if (i) he was engaged in such operations on March 23, 1949, and (ii) either had an air carrier operating certificate issued under Part 42 of this chapter, or had made application, no later than June 1, 1949, for a commercial operator certificate issued under this part.

(3) No person holding an air carrier operating certificate shall be required to obtain or be eligible for any commercial operator certificate unless he holds only

PROPOSED RULE MAKING

an air carrier operating certificate issued pursuant to Part 42 of this chapter and carried or intends to carry passengers for compensation or hire as a common carrier between any two points within a State with the frequency set forth in § 45.3 (a).

2. By amending § 45.4 (b) to read as follows:

(b) Persons subject to the provisions of this part who conduct common carrier operations subject hereto in aircraft of 12,500 pounds or more maximum certificated take-off weight carrying passengers between points entirely within a State with the frequency described in § 45.3 (a) shall, in the conduct of all operations between such points, comply with the requirements of Part 61 of this chapter, as heretofore or hereafter amended, except §§ 61.1 and 61.2 of this chapter, or with such other operating requirements as the Administrator finds will provide an appropriate level of safety for the operation.

This amendment is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

NORTHERN NEW ENGLAND CO. AND NEW
ENGLAND PUBLIC SERVICE CO.

ORDER DENYING MOTION AND NOTICE OF AND ORDER FOR ARGUMENT

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 8th day of December A. D. 1949.

tional amount, if any, not to exceed \$10 per share in the case of the certificates issued to the holders of such stock of the \$6 Dividend Series and not to exceed \$20 per share in the case of the certificates issued to holders of such stock of the \$7 Dividend Series, plus such compensation for delay in the payment thereof, as should be determined to be payable by final order in the proceedings; and the Commission in such order having reserved jurisdiction to pass upon the amounts payable on said Certificates of Contingent Interest on the basis of the record then before it without further proceedings; the plan having been amended accordingly and as so amended having been approved and enforced by the United States District Court for the District of Maine by order of August 6, 1947; and

A petition and brief in support thereof having been filed in this proceeding by David J. Greene, a holder of Preferred stock of NEPSCO and a shareholder of its parent, Northern New England Company, requesting that the Commission take official notice of certain matters asserted to have occurred between the closing of the record in the proceeding on April 30, 1947, and the filing of petitioner's brief on March 17, 1948, on requesting in the alternative that the record be reopened in order that evidence of such matters might be presented; and

The Commission having considered said petition and the briefs filed with respect thereto, and being of the opinion that the matters set forth in said petition are either irrelevant or immaterial to the question of the amounts payable on said Certificates of Contingent Interest: *It is ordered*, That said petition be and hereby is denied; and

The Commission deeming it appropriate, by reason of the fact that less than a majority of the present Commission held office at the time oral argument with respect to NEPSCO's plan was originally heard, that re-argument should be heard prior to the taking of action pursuant to the reservation of jurisdiction:

Notice is hereby given and *It is further ordered*, That argument be had before the Commission on January 5, 1950, at 10:00 a.m., e. s. t., in Room 102, at the office of the Commission, 425 Second Street NW., Washington 25, D. UNITED GAS CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 8th day of December A. D. 1949.

Notice is hereby given that United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 and has designated sections 9 (a) (1), 10 (a) (1), 10 (b) and 10 (c) thereof as applicable to the proposed transactions which are summarized as follows:

United, through its wholly owned subsidiary, United Gas Pipe Line Company ("Pipe Line"), derives certain of its natural gas from the Carthage Field, Texas, and operates a plant for the recovery of liquid hydro-carbons from natural gas produced in that field. Chicago Corporation and Carthage Corporation, non-affiliates, also operate such plants and the three companies are the principal producers of straight-run motor fuel in that field. Triangle Refineries and Highland Oil Company are marketers of gasoline produced at the Carthage Field. The application states that it is necessary to improve the quality of motor fuel derived from the Carthage Field and that modern catalytic cracking equipment is necessary for this purpose.

Atlas Processing Company ("Atlas"), a Delaware corporation, has been organized for the purpose of acquiring and operating a plant located at Shreveport, Louisiana, together with related facilities, for the reforming and upgrading of straight-run gasoline produced by certain producers in the Carthage Field, for a base cash purchase price of \$750,000. The plant and facilities after certain alterations will have a processing capacity of approximately 12,000 barrels of gasoline per day with a resulting calculated production of approximately 11,500 barrels of motor fuel having a minimum research octane rating of 83 for regular grade and 87 for premium grade.

The proposed capital structure of Atlas will consist of \$700,000 principal amount of First Mortgage, five year, 4% Notes, \$550,000 principal amount of Second Mortgage, five year, 4% Notes, and 10,000 shares of no par value common stock of an aggregate stated value of \$50,000. United proposes to acquire \$175,000 principal amount of the First Mortgage Notes, \$137,500 principal amount of the Second Mortgage Notes, and 2,500 shares of the common stock of Atlas for a total cash consideration of \$325,000. Chicago Corporation, Carthage Corporation, and Triangle Refineries and Highland Oil Company jointly, each proposes to acquire \$137,500 principal amount of the Second Mortgage Notes and 2,500 shares of the common stock of Atlas. The remainder of the First Mortgage Notes, amounting to \$525,000, will be sold by Atlas to the Second National Bank of Houston, Texas.

The application states that were Pipe Line to construct these facilities itself it

would cost approximately \$1,500,000 and that the proposed investment in Atlas makes available to Pipe Line the same capacity which it would have by construction of its own plant with a much lower investment.

Notice is further given that any interested person may, not later than December 20, 1949, at 11:30 a. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after 11:30 a. m., e. s. t., on December 20, 1949, said application as filed, or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file with the Commission for a statement of the transactions therein proposed.
